Brand	AVATHERM
Megnevezés	
External size (Wi)	620
External size (De)	420
External size (Hi)	300
Net weight (kg)	
Power (W)	1472
Internal size (Wi)	619
Internal size (De)	419
Internal size (He)	299
Packaging dimension (Wi)	621
Packaging dimension (De)	421
Packaging dimension (He)	301
Gross weight (kg)	6.5

PRODUCT DESCRIPTION

AVATHERM 100 Thermobox enables hygienic, safe and reliable transportation for highest food quality.

Thermoboxes are double-walled and internally foamed with CFC free polyurethane, providing optimum insulation with high resistance. The material of the tank is environmentally friendly and has excellent heat resistance. Its thermal resistance is -40° to $+100^{\circ}\text{C}$, the temperature change in case of hot food storage is only $-1,5^{\circ}\text{C}$, and in case of cold food is only $+1^{\circ}\text{C}$ per hour. The thermobox can be washed in dishwasher and can be easily cleaned by hand. The top-loader construction thermobox has a removable door with 2 moulded sash locks. Special cut-out at the corners inside the box makes it easy and safe to grip and handle the GN-containers. Serve immediately! The top lid features a special compartment for cutlery (fork, ladle, spoon) if required. (Not included in delivery - must be ordered separately) This feature permits serving immediately. The thermobox is available in green and yellow colours. You can order Avatherm products in packs of 10.
