## **PRODUCT DESCRIPTION**

AVATHERM 300 Thermobox enables higienic, safe and reliable transportation for highest food quality.

Thermoboxes are double-walled and internally foamed with CFC free polyurethane, providing optimum insulation with high resistance. The material of the tank is environmetally friendly and has excelent heat resistance. Its thermal resistance is  $-40^{\circ}$  to  $+100^{\circ}\text{C}$ , the temperature change in case of hot food storage is only  $-1,5^{\circ}\text{C}$ , and in case of cold food is only  $+1^{\circ}\text{C}$  per hour. The thermobox can be washed in dishwasher and can be easily cleaned by hand. The toploder construction thermobox has removable door with 2 moulded sash locks. Special cut-out at the corners inside the box makes it easy and safe to grip and handle the GN-containers. Serve immediately! The top lid features a special compartment for cutlery (fork, ladle, spoon) if required. (Not included in delivery - must be ordered separately) This features permit of serving immidiately. The thermobox is available in green and yellow colours. You can order Avatherm products in packs of 10.
