PRODUCT DESCRIPTION

Avatherm thermobox 600x2 is double-walled and internally foamed with CFC free polyurethane, providing optimum insulation with high resistance. The material of the tank is environmentally friendly and has excellent heat resistance. Its thermal resistance is -40° to $+100^{\circ}\text{C}$, the temperature change in case of hot food storage is only $-1,5^{\circ}\text{C}$, and in case of cold food is only $+1^{\circ}\text{C}$ per hour. The thermobox can be washed in dishwasher and can be easily cleaned by hand. This front-loader construction is ideal for larger deliveries. It has a removable swing door with a snap fastener. The snap fastener is adjustable. 12 shelf positions are in the box. Product is available in yellow and green colours. Optionally you can order it with wheels (4 castors, 2 of them with brakes) and a card holder. You can order Avatherm products in packs of 10.
