## PRODUCT DESCRIPTION

Products from Univerbar's PLUS Line stand out for electronic touch buttons which allow the client to customise settings: there are 5 washing times to choose from, a double display that shows the temperature, and a main switch that changes colour according to the washing phase. There are also 21 different tailored parameters that technicians can program to guarantee a consistently correct set-up. PLUS Line products come with an electric rinse-aid pump which guarantees the best quality drying results for every washing cycle. PLUS products include a soft start function, which prevents steam from escaping from the door when washing starts. Furthermore, the eco-friendly hot water

option helps reduce electric consumption. These products could also feature optional accessories, including: a thermal-stop option, which insures an 85° hot rinse, an extra rinse function and selections for other special cycles.
