PRODUCT DESCRIPTION

The EV Smart water purifier is a reverse osmosis water softener with flow-through system. The water purifier has an LCD display and a wi-fi system that allows the user to control easily and continuously. Highlights of the water softener include low power consumption, intelligent service functions and Wi-fi technology. The water purifier measures the composition of the incoming and outgoing water, mixing back the natural minerals.

EV Smart water softener filtration system has 4 + 1 stages:1. Pre-filter2. Carbon filter3. Osmosis filter4. Mineral mixer+1 Electric rinsing system: rinses itself every 12 hours to stop the growth of bacteria.

The EV Smart water purifier is a professional and convenient solution for any kitchen.

Current consumption: 220V input-36V output (low voltage)

Capacity: 100-120 liters / hour

Number of filters: 4 pcs

Filters capacity: 5,000 liters
