PRODUCT DESCRIPTION

TC 501 INNOVENDI - Offering cold beverages and meals or other products at special places is not easy. Neither traditional vending machines, nor shops are good solutions, but Innovendi with revolutionary Unattended Automated Retail System. The INNOVENDI is equipped with: Door material is aluminium and glass. Internal material is plastic-coated sheet steel. External material is plastic-coated sheet steel. Internal colour is grey. External colour is anthracite. Type of lighting double vertical LED. Customers can open the Innovendi fridge with a debit card. The fridge shelves work as super-sensitive scales and the system identifies the products (by the weight) that are taken from the shelves. Customers can grab and view the products, place them back and finally pay for the selected ones. Like in a real shop. It offers cooled products to people 24 hours a day, 7 days a week! Main advantages (compared with traditional vending machines): no cash handling costs, remote inventory management, lower transaction fees, and operating costs, improved buyer experience, higher average sale per customer, more product types and sizes, easy product rotation and price adjustment, immediate and online inventory information. Offered: gas stations, self-service sites, like airports, hospitals, canteens, schools, universities, office buildings, shopping malls, convenience stores, sport clubs, fitness centres.
